

ENERGY

Over 80% of all lighting across the estate now uses energy-efficient LED technology.

All electricity used on the estate comes from 100% renewable 'green' sources, including wind, solar, and hydro.

100% of our toilets are dual-flush toilets.

Installation of solar panels is underway across various locations on the estate to support a brighter, sustainable future.

We are committed to achieving net zero emissions and reducing our carbon footprint.

We are transitioning away from oil for heating and hot water, adopting greener and more sustainable alternatives.

BIODIVERSITY

Rewilding programme in place and includes 6 bat boxes, 4 bug hotels and 4 bee hives

Alternative 'Plant a Tree' scheme available to overnight guests (in place of "Clean My Room").

Our estates team has implemented a composting regime.

Through tree care, we ensure the health of our trees, with strategic trimming producing wood chips that are reused as mulch throughout the estate.

HOSPITALITY

All food offerings are 100% palm oil free.

50% of our menu is vegetarian or vegan.

We work with sustainably accredited hotel linen suppliers.

All meat and poultry meet UK welfare standards and are Red Tractor certified.

Chemical cleaning products have been replaced with eco-friendly alternatives.

A food waste reduction scheme is in place and available to staff.

WATER

We are reducing our water usage year on year.

Rainwater is collected for irrigation.

Installed tap restrictors to reduce water flow in all sleeping accommodation.

TRANSPORT

Safe bike storage is available for delegates and staff to encourage cycling to work.

We are embracing a brighter future by transitioning our vehicles and garden equipment to electric.

8 electric vehicle charging points.

REDUCE WASTE

All our cardboard is baled, stored, collected, and recycled monthly.

We use Vegware compostable disposables across Ashorne Hill, diverting waste from landfill.

89% of our builders' waste is recycled, with the other 11% processed into fuel.

All hospitality waste is 100% reused or recycled.

Excess equipment and consumables are donated to good causes.

Recycling 100% of paper, card, glass, cans, and plastic waste.

Recycling all glass waste has created a highly sustainable closed-loop system.

Single-use plastic toiletry bottles replaced with bulk dispensers or solid alternatives

The kitchen team is committed to driving down food waste.
